OVERVIEW

If you stay with us, you'll find a singular structure defined by touches of artistry. At Sir Albert, it's all about connection. To a project. To a person. To a pillow. From rooms outfitted with Sir signature bedding to a library stocked with great books (if you can pull yourself away from your Instagram stories for a chapter at a time), to a delicious dinner at IZAKAYA (our critically-acclaimed Japanese restaurant), your stay at Sir Albert will be accompanied by the kind of attention to detail that's far from the spreadsheet and close to Amsterdam's playful spirit.

ROOMS

With high ceilings and large windows, rooms at Sir Albert merge historic detail with clean, modern style. We are dead serious about cleanliness, so each room is outfitted with rainforest showers and Zenology toiletries to clean up for big nights out. And Sir signature bedding featuring 300-thread-count Egyptian cotton linens will be your dreamy playground for big nights in.
