

NH Collection Marseille

Hotel history and location

NH Collection Marseille is a 4-star hotel situated between the old port and the city center of Marseille, in “La Joliette”, the new business and leisure district of the city. Its historical Haussmanian building is located in the old “Imperial Street” of Marseille, inaugurated by Napoleon III in 1864, and then renamed “Rue de la République” after his departure. The building has been carefully renovated to preserve its enchantment and style.

Within walking distance you will find the best shops and trendy bars of Marseille, as well as the main attractions of the city: “Le Vieux Port” with its typical restaurants, the oldest district of Marseille “Le Panier” and its picturesque little streets, and also “Le MUCEM”, which is one of the leading ethnographic museums in Europe.

With its central location, the hotel is easy to access from the airport by the high-speed roads of the city, and from the Saint-Charles train station by metro or by tramway which stops just in front of the hotel.
