First Anniversary

Our past

The story of an abandoned warehouse and its urban rehabilitation, in a scenario where many of the Port wine warehouses no longer served the function for which they were built and many others were in ruins. Here the building was reconstructed, honoring its past.

MIGUEL MIRANDA

Architecture office ARQ 2525

The architectural project was in charge of the ARQ 2525 studio, with the architect Miguel Miranda.

The exterior design of the building was preserved in order to resemble the rooftops of the traditional Port Wine Cellars.

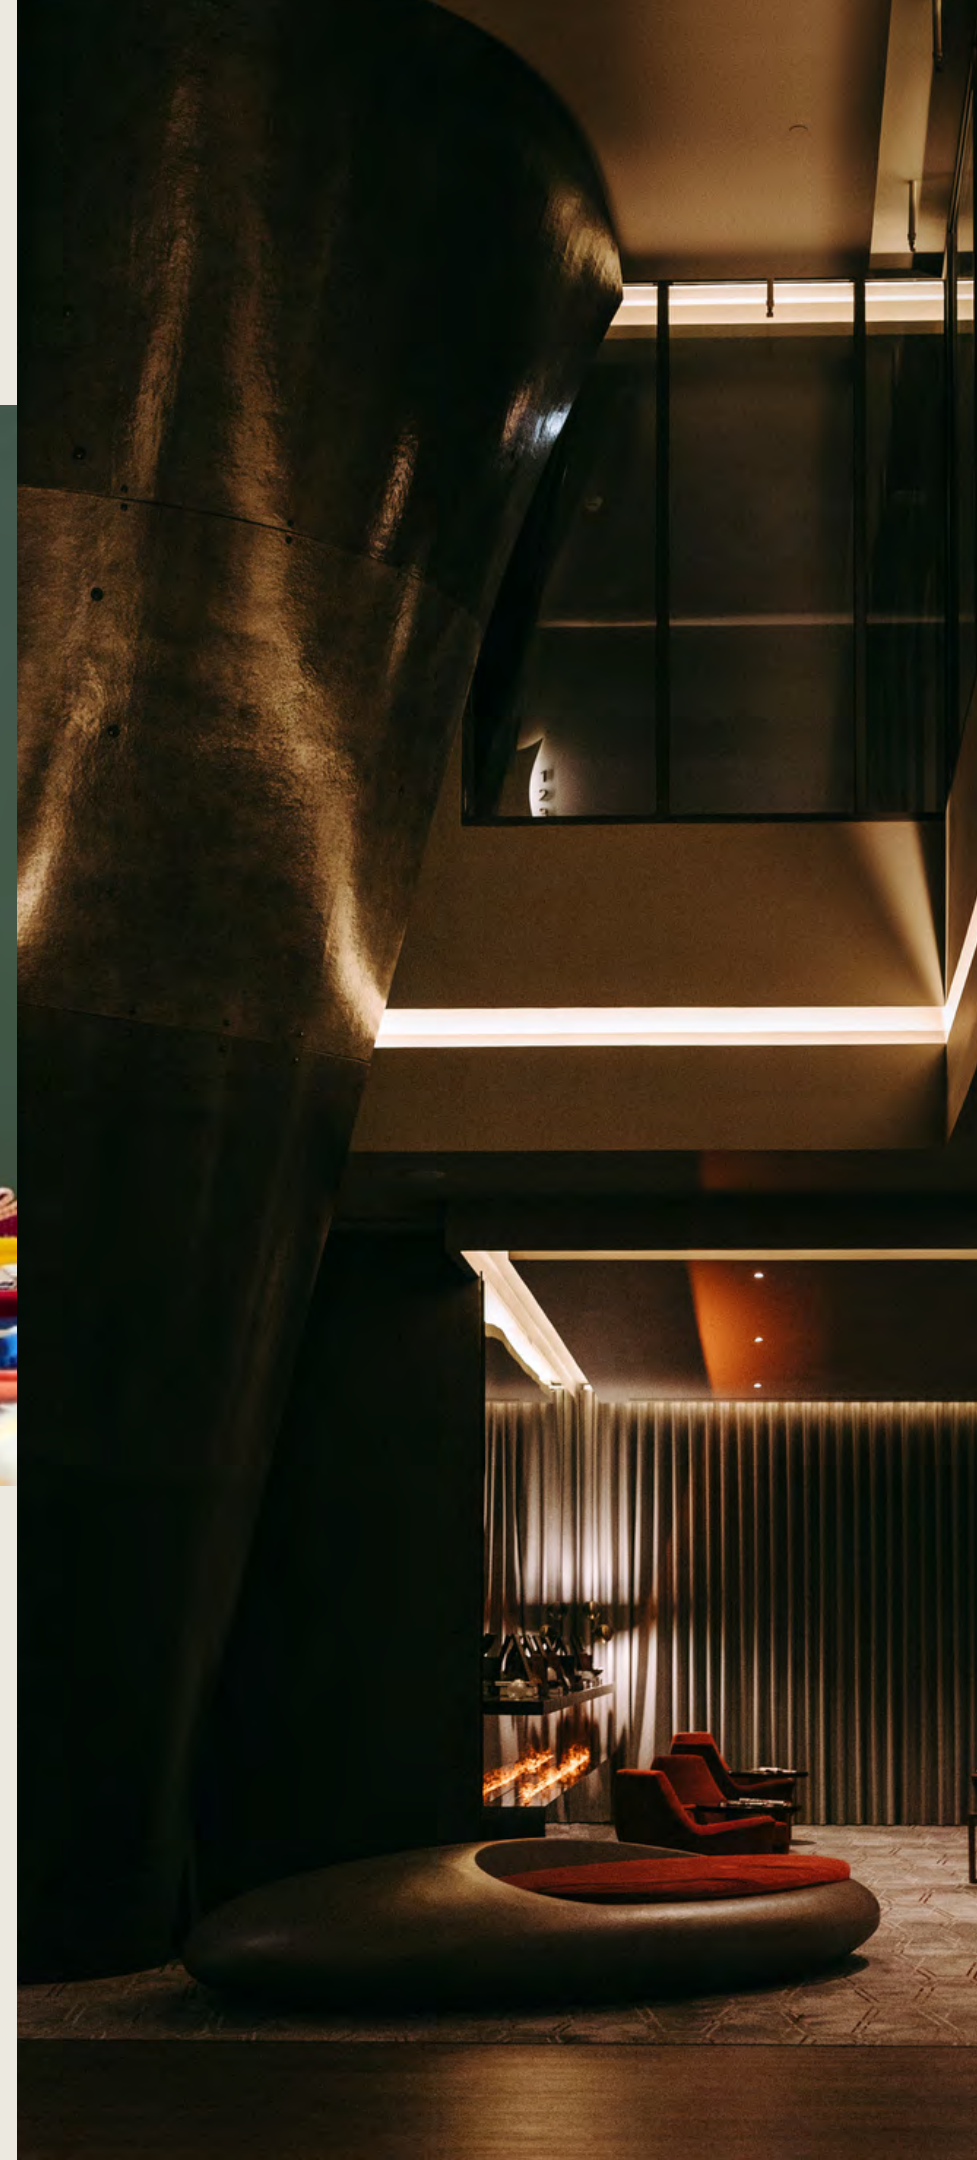

NINI ANDRADE SILVA

Interior Design and Architecture
Atelier Nini Andrade Silva

A project that pays tribute to the city of Porto with the colors and materials it uses in order to create an organic atmosphere with nature entering the building.

05

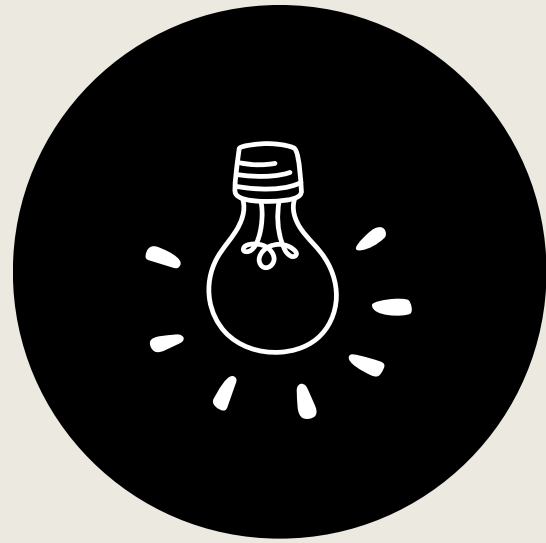

Parking

With 96 parking spots available, the park is adapted for people with reduced mobility and equipped for charging electric cars.

This space can also be transformed and adapted in order to host events.

06

All our rooms and corridors are equipped with presence detection technology to turn off the power.

Because preserving the environment is everyone's task....

We have 8 charging stations for electric cars in our garage.

We follow the "Meet with Purpose" program through which it is possible to improve customer experiences with healthy menus and wellness activities, helping to promote environmentally friendly practices and the organization of more sustainable events.

All our water taps have a flow reducer to avoid wasting water.

We reuse coffee grounds, "damaged" dehydrated fruit from the bar and also damaged fruit, to make our own scrubs, which we use in scrub treatments.
