

A photograph of a courtyard with a central fountain, arches, and a wooden pergola. The scene is split vertically into two halves: the left half is brightly lit, while the right half is in shadow. The text 'LA ZAMBRA' is overlaid on the right side, with a decorative symbol to its left. Below it, the text 'Regenerative Hotel Policy' is written in a smaller font.

✦ LA ZAMBRA
Regenerative Hotel Policy

La Zambra pays homage to the local culture, the contemporary and the inheritance of our past origins, offering an immersion in the Andalusian Mediterranean. For this reason the regeneration policy of destiny is part of our essence.

We take care *of the planet*

CLIMATE CHANGE

100% of the network's electricity we use comes from renewable sources, which decreases our environmental impact allowing us to become a Low Carbon Emissions Hotel.

We monitor the water's circuit, we also count with the necessary technology for the optimization of the water's use.

We have operative protocols about the water's use and the energy.

We count with an action plan that allows the constant improvement of our environmental performance with both present and future inversions and procedures.

All the lights are Led, decreasing consumption and carbon emissions.

We are equipped with loading points for electric vehicles.

We are provided with a modern system of energy payback. In summer, the heat produced by the AC during its use it would not be wasted because it will be also used to warm the water. However, in winter, the cold produced by the heating system will help to condition the common areas.

Every pool is treated with Electrolisis Salina, which prevents the use of chemicals and decreases the use of water for filter cleaning reasons.

We offer a comfort air conditioning system as well as an automatic lighting system which enables the energy's efficient use.

The menu includes both vegetarian and vegan options, and in case of an event we can adapt to special requirements.

WASTE MANAGMENT AND CIRCULARITY

We agree to return plastic containers to our service providers.

We take part in waste recirculation projects.

We purpose artwork activities using recycled materials from the hotel.

We are a plastic free hotel who has also set the goal of achieving the ending of disposable materials.

Our amenities' packaging is made out of organic wool.

The amenities under petition are manufactured with natural materials only and do not contain plastic.

The client's cosmetic is all natural and does not produce any residues.

RESPONSABLE SHOPPING

We prioritize the local shopping and without the use of plastic, decreasing the need to transport goods and the residues produced.

We rethink the products' design to provide its reusability and posterior recirculation.

We take care *of people*

DIVERSITY AND EQUITY

We respect the fundamental rights of all people: internal personal, clients, service providers and the local community.

The social corporate responsibility and equity are part of the gestion's strategy of La Zambra.

We encourage the constant training and the internal promotion.

CONSUMPTION KM-0

The shopping's policy includes, prioritizing the purchase of products whose origin is 100% local, this way we foster the local consumption and contribute to development.

LOCAL CULTURE AND PATRIMONY

The Andalusian culture and the respect for the patrimony are part of the identity and the experience of La Zambra.

We offer unique experiences which connect the clients with the local culture and the cultural knowledge.

We respect and promote the cultural awareness and the patrimony.

LA ZAMBRA
