

FACTS & FIGURES

On a property covering around 24 hectares, surrounded by green tranquility, we believe that reconnecting with nature is essential at the Monte Real Hotel. For this reason, while renovating the hotel, we let the space be immersed by this mood from the outside.

Here, we want you to find a balance with nature, as well as with your inner self. For just one moment, unplug from the stress of daily life, and experience this very special place.

Allow yourself the sensation of a reset. Stop. Revitalize yourself.

Take advantage of the hotel's interior spaces, take a swim in the outdoor pool and, above all, discover the surrounding area and its trails, fitness circuit and Spa complex. Be sure to try everything.
