

NH PARIS GARE DE L'EST

HISTORY AND LOCATION OF THE HOTEL

Elegant, strategic and well-known for the famous Canal Saint Martin and its cosmopolitan character, the 10th arrondissement is the ideal place to stay in Paris. This multiculturalism is reflected in the rich array of restaurants, bars and stores that embrace all cultures. It is in this very neighbourhood that the modern NH Paris Gare de l'Est is located. Here, the stories of travellers from all corners of the world are woven into a vibrant and diverse twist.

The hotel is located in the heart of this cosmopolitan area, a strategic location ideal for exploring the Ville Lumière thanks to its proximity to several business hubs as well as the major transportation lines, allowing you to reach easily the most important hotspots of the city, such as the Stade de France. Yet another story inevitably links the hotel to this place: it is the story of the Gare de l'Est, the historic train station that has seen countless travellers pass through. The timeless charm of this cosmopolitan location, known for the passage of the famous Orient Express in 1883, blends harmoniously with the modern comfort of the NH Paris Gare de l'Est.

Located in a 19th-century Haussmannian building, NH Paris Gare de l'Est still displays typical Parisian style. Drawing inspiration from the vibrant neighbourhood in which it is located, the hotel features modern amenities, spacious

public areas and stylish rooms with vibrant colours.

Welcome to a story that "travels on the tracks" of hospitality and modernity.
